

MIDDLE OFFICE MANAGER

DUTIES

- Within a given activity, the middle office manager serves as the interface between the front and back offices. He/she works in a highly sophisticated technical environment and is in contact with numerous people both inside the company (front office, back office, legal experts, etc.) and outside of it (clients, banks, etc.).
- He/she implements transactions initiated by the front office (credits, structured finance, more or less complex capital markets products, etc.) in accordance with internal authorizations and applicable laws. He/she plays an important role in the enrichment and validation of legal and financial (cash flows) aspects of transactions.
- He/she controls and monitors risks, improves transaction security and contributes to the validation of new products.
- He/she may also monitor and develop certain risk monitoring IT applications.
